

Step 4 - Google Classroom is the first tile that you will see. Click on this tile.

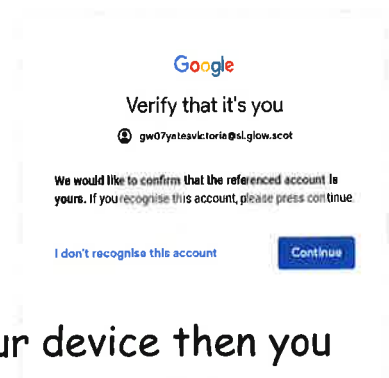

Step 5 - When clicking on the Classroom tile you may see this screen Please just click continue after checking the email address has your name in it.

It ends in @sl.glow.scot This is normal as we are linked to the Highschool with this.

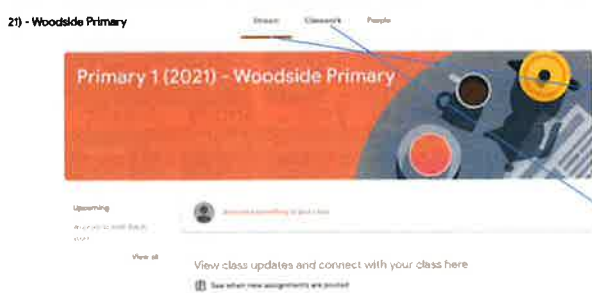

If you already have a google account linked to your device then you will need to add a 'new account' in order to access your child's work.

If you have more than one child then you will need to add an account for each child. Individual emails link to their own classrooms

Please use the 'Google email' listed on your child's details.

This should be the next screen that you see. Please click continue
After this screen click 'I'm a student'
Then click the blue join button

This will be your Google Classroom.
It works a bit like Facebook. The stream is where you will find most of the class comments and where you can post pictures or ask questions.
The classwork section will have work or links for each class. You will only be able to access the tasks that have been set for your child.

If you have any technical problems or issues logging in then please email:-
