How to access your child's learning from home

All of the work that your child needs can be accessed through your child's Glow platform.

Step 1 – type Glow login into Google

      Use the first link
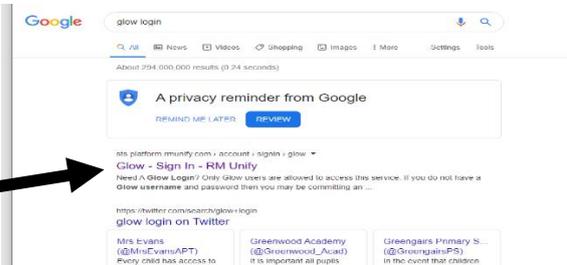

Step 2 – You should now see this page

You will find the details for logging on

to the platform in your child's

reading record.
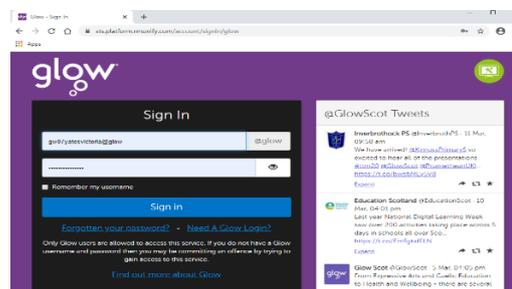

Step 3 – You will then have access to the

Glow platform which will look something

like this. Make sure you are on the

one that looks like a little house.
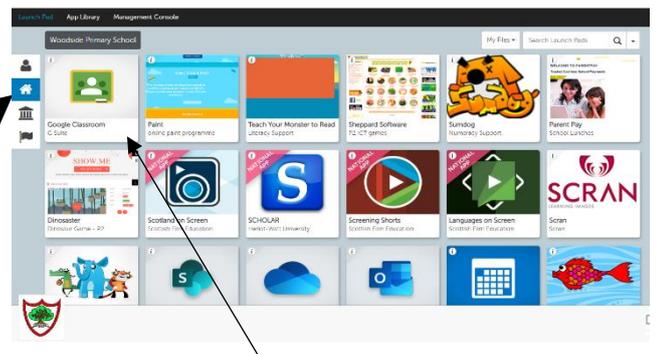

Step 4 – Google Classroom is the first tile that you will see.

We are aiming to post work in the Classroom (in the coming days) that all children should be able to access. Each stage has their own Classroom. This technology **does** rely on **internet access.**

Step 5 – When clicking on the Classroom tile you may see this screen

Please just click **continue** after checking the email address has your name in it.

It ends in @sl.glow.scot This is normal as we are linked to the Highschool with this.

The next screen should be your child's

Classroom. I'm showing you P2 for illustration purposes.
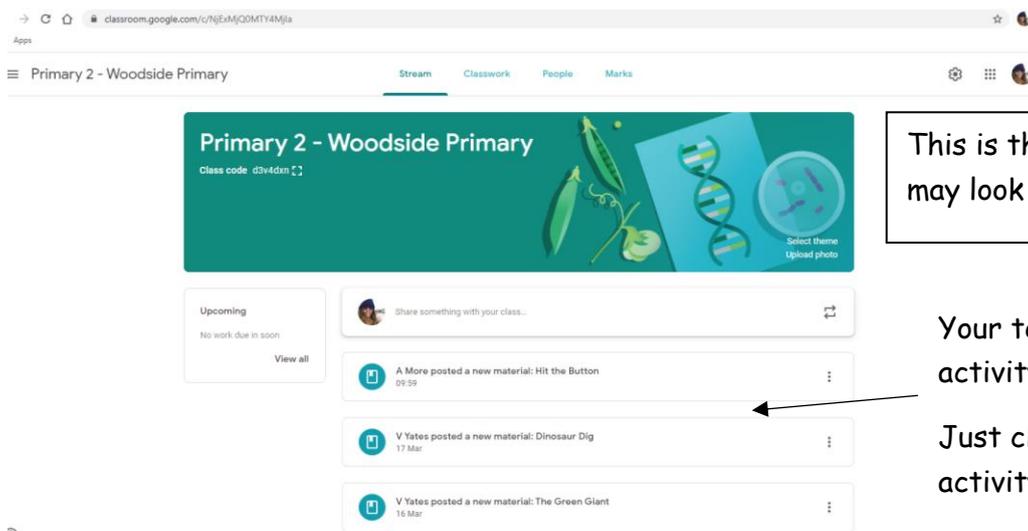

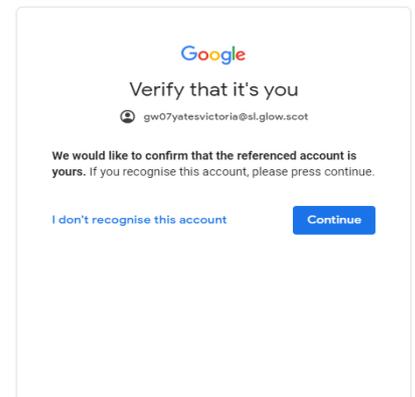

This is the teacher screen so yours may look slightly different.

Your teachers will post work and activity ideas in the stream here.

Just click on the bars to access the activity.

If you have any technical problems or issues logging in then please email:-

gw14 woodsidepsictc@glow.sch.uk

Please be aware that there may be some glitches with our platforms due to very high usage over the coming weeks.

These providers have issued free packs/access to help with home learning.
(If you have any issues accessing our platforms)

Teach Your Monster to Read – infant sounds and reading skills

Twinkl – You may need to sign up as a parent to access some resources
